Project: Inspect a Home

Comments: Troy showed up promptly and was very professional. He was very sincere and you can tell he takes his job very serious. I learned a lot about the house and houses in general when I was doing the walk through with him. What really impressed me as we were walking around the new house Troy spotted some wet ground near the base of house. I could not believe he noticed considering it was not very large but he had a gut feeling that something was wrong. It turned out he was so right. He found out that when you turned on the shower it started leaking outside the house. I was impressed. That could have been easily missed. Thanks Troy!!!! great job.

Project: Inspect a Home

Comments: At-East Home Inspections did a very thorough inspection of the home I bought. I especially liked and appreciated the pictures being included with the report so as I make repairs I can actually see what needs to be fixed!

Project: Inspect a Home

Comments: Prompt, courteous, and thorough....also able to do the termite inspection which saved about \$75....Only negative was the small oil leak from his vehicle onto the driveway....for which he apologized, cleaned it as best he could (it's barely noticeable), and gave me a \$15 discount....
